

Volunteer Work Day

in celebration of **Earth Day** and
Soil & Water Conservation Week!

Garlic Mustard is invading the understory of Iowa's woodlands, pushing out native plants like spring ephemeral wildflowers on which pollinators depend for host plants for laying eggs, and nectar resources first thing in the spring. **Help us take back our woodlands!**

Join us for a Garlic Mustard pulling work day!

Sunday, April 26, 2015

1:00-5:00pm

**Pammel Park Nature Center
Winterset, Iowa**

Come prepared with long pants, long sleeves, gloves, and a water bottle.

Snacks will be provided!
